Probability, Markov Chains, Queues, and Simulation -William J. Stewart 2009-07-06 Probability, Markov Chains, Queues, and Simulation provides a modern and authoritative treatment of the mathematical processes that underlie performance modeling. The detailed explanations of mathematical derivations and numerous illustrative examples make this textbook readily accessible to graduate and advanced undergraduate students taking courses in which stochastic processes play a fundamental role. The textbook is relevant to a wide variety of fields, including computer science, engineering, operations research, statistics, and mathematics. The textbook looks at the fundamentals of probability theory, from the basic concepts of set-based probability, through probability distributions, to bounds, limit theorems, and the laws of large numbers. Discrete and continuous-time Markov chains are analyzed from a theoretical and computational point of view. Topics include the Chapman-Kolmogorov equations; irreducibility; the potential, fundamental, and reachability matrices; random walk problems; reversibility; renewal processes; and the numerical computation of stationary and transient distributions. The M/M/1 queue and its extensions to more general birth-death processes are analyzed in detail, as are queues with phase-type arrival and service processes. The M/G/1 and G/M/1 queues are solved using embedded Markov chains; the busy period, residual service time, and priority scheduling are treated. Open and closed queueing networks are analyzed. The final part of the book addresses the mathematical basis of simulation. Each chapter of the textbook concludes with an extensive set of exercises. An instructor's solution manual, in which all exercises are completely worked out, is also available (to professors only). Numerous examples illuminate the mathematical theories Carefully detailed explanations of mathematical derivations guarantee a valuable pedagogical approach Each chapter concludes with an extensive set of exercises

Excellence in Dementia Care -Murna Downs 2008 "This book is to be recommended for anybody who is interested in a multi-, inter- or even cross-disciplinarian

approach to care for dementia. It might also be useful for a non-professional audience also because it is extremely didactic and accessible." International Journal of Integrated Care, Feb 2012

The Fourth Economy-Ron Davison 2011 The simple but sweeping premise of this book is that a fourth, entrepreneurial economy is emerging. This will be as different from the information economy as that was from the industrial economy before it. Last century we popularized knowledge work, transforming from an industrial economy dependent on child labor to an information economy dependent on adult education. This century we will popularize entrepreneurship, changing what it means to be an employee. Since medieval times, the West has been defined by agricultural, industrial, and information economies. These three economies have transformed religion, politics, and finance. An emerging entrepreneurial economy promises to transform business. Perhaps the most interesting prediction is that social invention will be as common for the next generation as technological invention became in the last century. The Fourth Economy: Inventing Western Civilization is a wildly optimistic book that will change how you think about the past and your future.

The Sisters Club: Cloudy with a Chance of Boys-Megan McDonald 2011-03-22 The forecast calls for a first crush after Stevie makes a wish for something new and daring in this authentic, funny Sisters Club adventure. (Age 10 and up) As the middle sister in a family with three girls, Stevie Reel doesn't know much about boys, and that's always been just fine with her. But lately, things have been changing: kids at school are starting to pair up, and Owen, the new boy in her Earth Science class, seems to have his sights set on Stevie. The trouble is, Stevie doesn't want a boyfriend- she's not even sure she's ready to have a boy friend. And her sisters, who know exactly where they stand on the issue of boys, are no help: drama queen Alex is busy trying to orchestrate a perfect, Romeo-and-Juliet-style first kiss from her heartthrob, Scott Towel (er, Howell), while Joey can't understand why anyone would like a boy better than a frog anyway. If only figuring out boys were as easy as predicting the weather!

Hyena Nights & Kalahari Days-Gus Mills 2010 In this fascinating account of scientific study among forbidding wilderness, a husband-and-wife team describe their trek to the Kalahari to study the little-known brown hyena. The details of the scientific inquiry are provided while the daily challenges of living with children 420 kilometers from the nearest town are described. Despite the hardships, the couple becomes so enchanted by these intelligent animals that they stay for 12 years, documenting many hyena clans and observing behavior only a handful of people have ever seen.

Cain's Identity (Scanguards Vampires #9)-Tina Folsom 2014-09-03 The Scanguards Vampires series - over 1 Million copies sold worldwide! Scanguards bodyguard Cain struggles with amnesia, however, the curtain to his past finally begins to lift when a mysterious stranger appears, revealing that Cain was the victim of an assassination attempt. It turns out that not only is Cain a powerful vampire king, he's also engaged to Faye Duvall, the female vampire who's been haunting his dreams. When Faye thinks Cain is dead, she's devastated and can only keep going because she knows her clan needs her. Out of loyalty and love for her fellow vampires, she agrees to marry Abel, Cain's brother, and is shocked when Cain returns to reclaim his throne. Cain is determined to recapture the love he once shared with Faye. But the assassin won't give up and his ruthlessness knows no limits. Backed up by his loyal friends from Scanguards, Cain suddenly finds himself in a fight to the death and confronted with a choice: to either save his kingdom or his queen. Evening in the Palace of Reason-James R. Gaines 2006-02-28 Johann Sebastian Bach created what may be the most celestial and profound body of music in history; Frederick the Great built the colossus we now know as Germany, and along with it a template for modern warfare. Their fleeting encounter in 1757 signals a unique moment in history where belief collided with the cold certainty of reason. Set at the tipping point between the ancient and modern world, Evening in the Palace of Reason captures the tumult of the eighteenth century, the legacy of the Reformation, and the birth of the Enlightenment in this extraordinary tale of two men.

Self-leadership and Goal Striving Across Cultures-Sibylle Georgianna 2007 This study offers the results of a case study of seventy-two university undergraduates, half of which live in the United States, the other half being from the People's Republic of China, illustrating the differences that exist between the ways in which these students set goal for themselves and seek to attain their objectives. This study should appeal to scholars interested in education and cross-cultural studies. themselves and the strategies they employ in order to attain these objectives. Thirty-six American undergraduates and thirty-six undergraduates from the People's Republic of China set for themselves individual professional goals. These students then elaborated what they associated with attaining their chosen objectives. The American group tended to imagine career advancement as the outcome of their self-set goal; in contrast, the Chinese group imagined acquisition of knowledge as their main objective. Concerning the attainment of their goals, the American students did not specify which strategies they would use to attain their goals, but thought that the existence of abilities and resources, such as money, determined whether or not they would be successful; in contrast, the Asian students imagined hard work, diligence and personal effort to be necessary. people's self-guided goal striving behavior, knowledge which is important to those who support individuals across the world in their goal setting and goal attainment behavior.
