Sport Beyond Television-Brett Hutchins 2012 Television is no longer the only screen delivering footage and news to people about sport. Computers, the Internet, Web, mobile and other digital media are increasingly important technologies in the production and consumption of sports media. Sport Beyond Television analyzes the changes that have given rise to this situation, combining theoretical insights with original evidence collected through extensive research and interviews with people working in the media and sport industries. It locates sports media as a pivotal component in online content economies and cultures, and counteracts the scant scholarly attention to sports media when compared to music, film and publishing in convergent media cultures. An expanding array of popular sports media - industry, user, club, athlete and fan produced - is now available and accessible in networked digital communications environments. This change is confounding the thinking of major sports organizations that have lived off the generous revenue flowing from exclusive broadcast contracts with free-to-air and subscription television networks for the last five decades. These developments are creating commercial and policy confusion, particularly as sports audiences and the advertising market fragment in line with the proliferation of niche channels and sources of digital sports media. Chapters in this title examine the shift from broadcast to online sports media markets, the impact of social networking platforms like Twitter and Facebook, evolving user and fan practices, the changing character of sports journalism, and the rise of sports computer gaming. Each chapter traces the socio-cultural implications of trends and trajectories in media sport.

Jesus the Evangelist-Richard D. Phillips 2007 Do you share your faith often--or at all? All Christians are called to be evangelists. But many believers ask: What is an evangelist? How do I begin to talk to someone about Jesus? What must I say? This book offers answers about evangelism straight from the pages of Scripture.

Outboard Motors Maintenance and Repair Manual-Jean-Luc Pallas 2006 The aim of this book, with its superb step by step photographs and detailed diagrams is to enable every owner to understand the workings of an outboard motor (2 or 4 stroke) and be able to fix it with relative ease. It includes: an explanation of the different parts that make up the engine and how they interact; how fuel is transformed into propulsion; regular maintenance and repair worksheets to help even the most mechanically ignorant to work on their outboard engine with confidence; the most common causes of breakdown; troubleshooting tables to allow you to diagnose and fix the most common engine problems and advice on how to winterize your outboard in one short afternoon. After reading this book, your outboard will no longer be a potential bother to you but an ally for better boating.

Alex and the Ironic Gentleman-Adrienne Kress 2008-08-19 Often mistaken for a boy because of her haircut and name, Alex Morningside is an inquisitive girl of ten-and-a-half who attends the prestigious Wigpowder-Steele Academy. Unfortunately, though she loves to learn, Alex just can't bring herself to enjoy her classes. Her teachers are all old and smelly and don't seem to know about anything that has happened in the world the past thirty years, and her peers...well they are quite simply ridiculous. Luckily for Alex, the new school year brings an exciting new teacher. Mr. Underwood makes lessons fun and teaches her how to fence. But Mr. Underwood has a mysterious family secret - the swashbuckling and buried treasure kind - and not everyone is glad he has come to Wigpowder-Steele. When the infamous pirates of a ship called the Ironic Gentleman kidnap Mr. Underwood, Alex sets off on a journey to rescue him, along the way encountering a cast of strange and magical characters, including the dashing and sometimes heroic Captain Magnanimous, Coriander the Conjuror, the Extremely Ginormous Octopus, and the wicked Daughters of the Founding Fathers' Preservation Society.

The European Commission and Interest Groups-Irina Tanasescu 2009 A well-researched and unique account, this volume provides an in-depth assessment of the European Commission consultation exercises from a novel perspective, namely from a set of criteria inspired by deliberative democracy theories. Examining what happens in concrete instances of consultation, this investigation also chronicles a series of related issues such as environmental governance, policy implementation, and the better regulation framework. Via case studies and analysis, this investigation allows for a greater understanding of the interaction between the European Commission and interest groups.

The Legend of Starcrash-Dolores Cannon 1994-01 Through regressive hypnosis a lost legend of the history of mankind has been retrieved from the recesses of time. Did the American Indians descend from the inhabitants of an alien spacecraft that crashed in the Alaska-Canada region thousands of years ago? Starcrash indicates that aliens continued to come to Earth, some intentionally and by accident, throughout our history. In order to adjust to harsh conditions they were forced to interbreed with the local aborigines. This was the only way to insure the survival of their race. Does their blood still flow in the veins of certain American Indian tribes?

CMOS Imagers-Orly Yadid-Pecht 2007-05-08 The idea of writing a book on CMOS imaging has been brewing for several years. It was placed on a fast track after we agreed to organize a tutorial on CMOS sensors for the 2004 IEEE International Symposium on Circuits and Systems (ISCAS 2004). This tutorial defined the structure of the book, but as first time authors/editors, we had a lot to learn about the logistics of putting together information from multiple sources. Needless to say, it was a long road between the tutorial and the book, and it took more than a few months to complete. We hope that you will find our journey worthwhile and the collated information useful. The laboratories of the authors are located at many universities distributed around the world. Their unifying theme, however, is the advancement of knowledge for the development of systems for CMOS imaging and image processing. We hope that this book will highlight the ideas that have been pioneered by the authors, while providing a roadmap for new practitioners in this field to exploit exciting opportunities to integrate imaging and “smartness” on a single VLSI chip. The potential of these smart imaging systems is still unfulfilled. Hence, there is still plenty of research and development to be done.

Silence and Beauty-Makoto Fujimura 2016-05 Internationally renowned artist Makoto Fujimura reflects on Shusaku Endo's novel Silence and grapples with the nature of art, pain and culture. Showing that light is yet present in darkness, he uncovers deep layers of meaning in Japanese history and finds connections to how faith is lived in contexts of trauma.

Ultimate Harley Davidson-Hugo Wilson 2013-10-01 Updated for a new generation of bike lovers, Ultimate Harley Davidson is a visually stunning and comprehensive history of Harley-Davidson that charts the company and its bikes decade by decade. Exodus Code-John Barrowman 2013 It starts with a series of unexplained events. Earth tremors across the globe. Women being driven driven insane by their scrambled senses. Governments and scientists are bewildered and silent. The world needs Torchwood, but there's not much of Torchwood left. Captain Jack Harkness has tracked the problem to its source: a village in Peru, where he's uncovered evidence of alien involvement. In Cardiff, Gwen Cooper has discovered something alien and somehow connected to Jack. If the world is to be restored, she has to warn him - but she's quickly becoming a victim of the madness, too...

Confessions of a Pagan Nun-Kate Horsley 2002-09-10 Cloistered in a stone cell at the monastery of Saint Brigit, a sixth-century Irish nun secretly records the memories of her Pagan youth, interrupting her assigned task of transcribing Augustine and Patrick. She also writes of her fiercely independent mother, whose skill with healing plants and inner strength she inherited. She writes of her druid teacher, the brusque but magnetic Giannon, who first introduced her to the mysteries of written language. But disturbing events at the cloister keep intervening. As the monastery is rent by vague and fantastic accusations, Gwynneve's words become the one force that can save her from annihilation.

With Every Drop of Blood-James Lincoln Collier 2012-05-01 A vivid portrayal of the Civil War. Johnny, fourteen, convinces his mother to let him join a wagon train carrying food to Confederate soldiers. He has been brought up to believe that all blacks are stupid; thus, when captured by a black Union soldier who insists that Johnny teach him to read, he deliberately tricks him. The boy is surprised the soldier saves him from imprisonment and their relationship grows throughout the book.

Victor Turner and Contemporary Cultural Performance-Graham St. John 2008 In the twenty years following Victor Turner's death, interventions on the interconnected performance modes of play, drama, and community (dimensions of which Turner deemed the limen), and experimental and analytical forays into the anthropologies of experience and consciousness, have complemented and extended Turnerian readings on the moments and sites of culture's becoming. Examining Turner's continued relevance in performance and popular culture, pilgrimage and communitas, as well as Edith Turner's role, the contributors reflect on the wide application of Victor Turner's thought to cultural performance in the early twenty-first century and explore how Turner's ideas have been re-engaged, renovated, and repurposed in studies of contemporary cultural performance.

Filthy Rich Clients-Chet Haase 2007-08-09 Filthy Rich Clients refers to ultra-graphically rich applications that ooze cool. They suck the user in from the outset and hang on to them with a death grip of excitement. Filthy Rich Clients: Developing Animated and Graphical Effects for Desktop Java™ Applications shows you how to build better, more effective, cooler desktop applications that intensify the user experience. The keys to Filthy Rich Clients are graphical and animated effects. These kinds of effects provide ways of enhancing the user experience of the application through more attractive GUIs, dynamic effects that give your application a pulse, and animated transitions that keep your user connected to the logical flow of the application. The book also discusses how to do so effectively, making sure to enrich applications in sensible ways. In-depth coverage includes Graphics and GUI fundamentals: Dig deep into the internals of how Swing and Java 2D work together to display GUI applications onscreen. Learn how to maximize the flexibility of these libraries and use them most effectively. Performance: Follow in-depth discussions and tips throughout the book that will help you write high-performing GUI applications. Images: Understand how images are created and used to make better Java applications. Advanced graphics: Learn more about elements of Swing and Java 2D that are of particular benefit to Filthy Rich Clients. Animation: Discover general concepts of animation, as well as how to use the facilities provided in the Java platform. Learn new utility libraries that vastly simplify animations in Java. Effects: Learn how to create, customize, and use static and animated effects—the mainstays of Filthy Rich Clients. Code examples illustrate key concepts, and the book’s companion

Web site, <http://filthyrichclients.org>, includes extensive demos, utility libraries, additional information on related technologies, and more. Informal, fun, and, most of all, useful, this book is great for any developer working with Java to build desktop applications.

Extrusion Dies for Plastics and Rubber-Christian Hopmann 2017-04-10 This definitive book provides a comprehensive account of the full range of dies used for extrusion of plastics and elastomers. The distinctive features of the various types of dies are described in detail. Expert advice on the configuration of dies is given, and the possibilities of computer-aided design, as well as its limitations, are demonstrated. Fundamentals and computational procedures are clearly explained so that no special prior knowledge of the subject is required. The mechanical configuration, handling, and maintenance of extrusion dies are described. Calibration procedures for pipes and profiles are also discussed. This book was written for plastics engineers who need daily support in their practical work in industry and science, as well as for students preparing for their professional life. The 4th edition is brought up to date with several important additions, including coverage of multilayer (>15 layer) dies, melt encapsulation, and simulation tools (rheological/thermal CFD simulations).
