<b>Special Operations Patrol Vehicles</b> -Leigh Neville 2011-09-20 The patrol vehicles used by Special Operations Forces in Afghanistan and Iraq vary quite dramatically between the theatres as well as amongst the Coalition members, and have been developed and upgraded to meet the demands of the deployment. Covering all the major Coalition nations, Leigh Neville continues his look at the elite forces deployed in Operations Enduring Freedom and Iraqi Freedom, with this analysis of their vehicles. Tracing the evolution of the vehicle types, from their historical precedents, through their designs to their operational developments, he discusses their advantages and disadvantages, along with their tactical employment. From the mine-protected vehicles used to counter the IED threat in Iraq, the use of Strykers as armoured raiding platforms by the US Rangers, to the civilian vehicles adapted for military service by both Coalition troops and Private Military Contractors in the regions, this book uses rare in-theatre photographs and colour artwork to show the variety and inventiveness of the patrol vehicles being used in combat today.

<b>Down and Out in Patagonia, Kamchatka, and Timbuktu</b> -Gregory Frazier 2014-04-15 The first-ever firsthand chronicle of Dr. Gregory W. Frazier's never-ending motorcycle ride. A little over 40 years ago, a man named Gregory W. Frazier got on his motorcycle, went for a ride, and never returned. He's still out there, circumnavigating the globe: exploring the jungles of Asia in the winter, trout fishing in Alaska in the summer, and covering all points in between during the rest of the year. He's been shot at by rebels, jailed by unfriendly authorities, bitten by snakes, run over by Pamplona bulls, and smitten by a product of Adam's rib. He's circled the globe five times and has covered well over one million miles (and counting). During those past four decades, Dr. Frazier has been chronicling and photographing his around-the-world adventures, publishing 13 books on the subject (including one previous title for Motorbooks), the majority of which have been manuals for touring specific locations or general how-to-tour-by-motorcycle books. He has also produced 9 documentary DVDs on the same subject. But until now, nothing in print has encompassed the entirety of his worldwide motorcycle adventures. Now, for the first time, he has written his on-the-road autobiography that captures the whole of his extraordinary travels in words and images. Down and Out in Patagonia, Kamchatka, and Timbuktu tells the amazing ongoing story of Dr. Frazier, one of the world's single most well-traveled motorcyclists.

**Hurricane!**-Tom Madigan Hurricane! The Bob Hannah Story is the first book to explore the life of American motocross and Supercross racing's first superstar. From the time he raced the Husquvarna he bought with "ones, fives, tens, change; all of my savings," until his retirement at Unadilla in 1989, Bob Hannah won races and championships, spoke his mind, and signed almost every autograph-seeker's program. Told as an oral history by Hannah himself and by those who know him best, this book is full of stories that could only have happened to a character as colorful as the Hurricane. The tale author Tom Madigan tells is the life of an American original, a boy who went from riding dirt bikes in the desert with his father to taking the motocross world by surprise. By the time Hannah retired in 1989, he had collected 70 AMA National wins, seven AMA National titles, a MX des Nations title, and legions of devoted fans. When inducted into the AMA Motorcycle Hall of Fame in 1999, he was second to none in both total and consecutive wins. Richly illustrated, this is the definitive biography of the Hurricane.
