Rook-Sharon Cameron 2015-04-28 Who needs a wedding ring when you can pick up a sword? A remarkable and utterly inventive novel from Sharon Cameron, author of THE DARK UNWINDING, which USA TODAY called "spellbindingly imaginative." History has a way of repeating itself. In the Sunken City that was once Paris, all who oppose the new revolution are being put to the blade. Except for those who disappear from their prison cells, a red-tipped rook feather left in their place. Is the mysterious Red Rook a savior of the innocent or a criminal? Meanwhile, across the sea in the Commonwealth, Sophia Bellamy's arranged marriage to the wealthy René Hasard is the last chance to save her family from ruin. But when the search for the Red Rook comes straight to her doorstep, Sophia discovers that her fiancé is not all he seems. Which is only fair, because neither is she. As the Red Rook grows bolder and the stakes grow higher, Sophia and René find themselves locked in a tantalizing game of cat and mouse. Daring intrigue, delicious romance, and spine-tingling suspense fill the pages of this extraordinary tale from award-winning author Sharon Cameron.

Buy Buttons-Nick Loper 2016-09-17 Whether you want to make an extra \$100 a month or an extra \$10,000, the high-level process is the same: Someone has to buy what you're selling. The money has to come from somewhere, right? (Hint: it comes from customers.) Sadly, there's an epidemic going around. The reason most entrepreneurs, wantpreneurs, and side hustlers fail is a lack of customers. If you've ever failed in your own efforts to start a business or earn money on the side, I'm guessing that was the root cause. On top of that, you're in a constant battle of not having enough hours in the day and you don't know where to focus your limited time, energy, and money. That's the bad news. The Answer The good news is you have more opportunity today to earn income in your spare time than ever before. And you don't need a killer new business idea or millions of dollars in startup capital to do it. The good news is there isn't a shortage of customers. They're out there! This book will share specifics on how to increase your earning power-on your own time, on your own terms, and without getting another job. We'll look at real-life examples of people just like you making it happen. I'm going to arm you with dozens of income-generating ideas that don't require a ton of time or money to get started. And spoiler alert: there are no get-rich-quick schemes inside. Instead, you'll learn proven strategies for tapping into the growing peer-to-peer economy to supplement your income, diversify your revenue sources, and reduce your reliance on your day job for your livelihood. Go Where the Cash Is Already Flowing Buy Buttons focuses on marketplaces that already exist, where you can put your expertise, time, and assets up for sale or rent. There are hundreds of platforms that you can add your "buy buttons" to. You don't have to build a customer base from scratch, design a website, or even worry about payment processing. Each platform already has an eager audience of buyers looking for what you have to sell. Not sure what to sell? In the 300+ platforms featured inside, you're bound to find an idea or two that's a fit. These platforms are the "gateway drugs" of entrepreneurship. They're easy to get started on, to get the high from your first sale, and to keep coming back for more. Does It Really Work? I've used the same "buy buttons" marketplace strategy over and over again for the last 15 years as an entrepreneur. Even more exciting, thousands of SideHustleNation.com readers and Side Hustle Show listeners just like you are already seeing results by implementing the strategies in this book. The common thread is they set up their businesses on pre-existing platforms that made it easy for buyers to find them and spend money with them. This book will show you exactly where and how to set up your "buy buttons" to generate hundreds or thousands of dollars a month in side income. My Guarantee I guarantee you'll find at least one "buy button" platform that you can use to generate your own job-free income stream. If you don't, just send me a note (my contact info is at the end of the book), and I'll buy the book back from you, no questions asked. Now, where else are you going to find a deal like that? Ready? Hit the Buy Now button and let's get started!

Valuation for Arbitration-Mark Kantor 2008-01-01 This book provides a clear understanding of the nuts and bolts of valuation approaches for business investments, including market, income and asset-based methods. It reviews tools that arbitrators may employ to reach their final compensation assessment on a principled basis. The bookand[]s many practical recommendations explore the decision making processes entailed in three central aspects of the arbitratorand[]s role: and[] advance planning to enhance understanding of expert valuation evidence; and[] identification of and[]apples-to-orangesand[] miscomparisons; and and[] recognition of the true comparability between the business at issue and other examples offered in the expert evidence. The presentation focuses not only on the legal standards applicable to the valuation (full or adequate compensation, reparations, restitution, actual loss, fair market value, fair or reasonably equivalent value, lost profits, etc.), but also on the informed judgment and reasonableness that must enter into the process of weighing the facts of each case and determining its aggregate significance. The book considers common valuation methods like discounted cash flows, adjusted present values, capitalized cash flows, adjusted book values and comparable sales and transactions. Additionally, it addresses means for arbitrators to assess expert valuation evidence in complex business investment disputes. andquot;Best book 2008 of the OGEMID awards!andquot;

When God Visits You-Chris Oyakhilome 2001

Republic of Equatorial Guinea-International Monetary Fund. African Dept. 2016-11-16 This 2016 Article IV Consultation highlights that Equatorial Guinea’s overall real GDP growth has been weak in recent years averaging -0.5 percent from 2010-14, largely owing to a trend decline of the dominant hydrocarbon sector. Economic performance deteriorated substantially in the wake of the 2014 oil-price shock. In 2015, the pace of the contraction intensified, and economic activity declined by 7.4 percent. The near-term outlook is very challenging, given prospects for depressed energy prices and a continued decline in hydrocarbon production. Weak oil revenues and limited buffers will require further cuts to public investment, leading to a deep contraction of the large construction sector and public administration.

Results from molecular studies offer insight into evolutionary patterns, while new ecological research examines both species and communities. Serpentine highlights research whose breadth provides context and fresh insights into the evolution and ecology of stressful environments.
