Buy Buttons-Nick Loper 2016-09-17 Whether you want to make an extra \$100 a month or an extra \$10,000, the high-level process is the same: Someone has to buy what you're selling. The money has to come from somewhere, right? (Hint: it comes from customers.) Sadly, there's an epidemic going around. The reason most entrepreneurs, wantpreneurs, and side hustlers fail is a lack of customers. If you've ever failed in your own efforts to start a business or earn money on the side, I'm guessing that was the root cause. On top of that, you're in a constant battle of not having enough hours in the day and you don't know where to focus your limited time, energy, and money. That's the bad news. The Answer The good news is you have more opportunity today to earn income in your spare time than ever before. And you don't need a killer new business idea or millions of dollars in startup capital to do it. The good news is there isn't a shortage of customers. They're out there! This book will share specifics on how to increase your earning power on your own time, on your own terms, and without getting another job. We'll look at real-life examples of people just like you making it happen. I'm going to arm you with dozens of income-generating ideas that don't require a ton of time or money to get started. And spoiler alert: there are no get-rich-quick schemes inside. Instead, you'll learn proven strategies for tapping into the growing peer-to-peer economy to supplement your income, diversify your revenue sources, and reduce your reliance on your day job for your livelihood. Go Where the Cash Is Already Flowing Buy Buttons focuses on marketplaces that already exist, where you can put your expertise, time, and assets up for sale or rent. There are hundreds of platforms that you can add your "buy buttons" to. You don't have to build a customer base from scratch, design a website, or even worry about payment processing. Each platform already has an eager audience of buyers looking for what you have to sell. Not sure what to sell? In the 300+ platforms featured inside, you're bound to find an idea or two that's a fit. These platforms are the "gateway drugs" of entrepreneurship. They're easy to get started on, to get the high from your first sale, and to keep coming back for more. Does It Really Work? I've used the same "buy buttons" marketplace strategy over and over again for the last 15 years as an entrepreneur. Even more exciting, thousands of SideHustleNation.com readers and Side Hustle Show listeners just like you are already seeing results by implementing the strategies in this book. The common thread is they set up their businesses on pre-existing platforms that made it easy for buyers to find them and spend money with them. This book will show you exactly where and how to set up your "buy buttons" to generate hundreds or thousands of dollars a month in side income. My Guarantee I guarantee you'll find at least one "buy button" platform that you can use to generate your own job-free income stream. If you don't, just send me a note (my contact info is at the end of the book), and I'll buy the book back from you, no questions asked. Now, where else are you going to find a deal like that? Ready? Hit the Buy Now button and let's get started!

Valuation for Arbitration-Mark Kantor 2008-01-01 This book provides a clear understanding of the nuts and bolts of valuation approaches for business investments, including market, income and asset-based methods. It reviews tools that arbitrators may employ to reach their final compensation assessment on a principled basis. The bookand[]s many practical recommendations explore the decision making processes entailed in three central aspects of the arbitratorand[]s role: and[] advance planning to enhance understanding of expert valuation evidence; and[] identification of and[]apples-to-orangesand[] miscomparisons; and and[] recognition of the true comparability between the business at issue and other examples offered in the expert evidence. The presentation focuses not only on the legal standards applicable to the valuation (full or adequate compensation, reparations, restitution, actual loss, fair market value, fair or reasonably equivalent value, lost profits, etc.), but also on the informed judgment and reasonableness that must enter into the process of weighing the facts of each case and determining its aggregate significance. The book considers common valuation methods like discounted cash flows, adjusted present values, capitalized cash flows, adjusted book values and comparable sales and transactions. Additionally, it addresses means for arbitrators to assess expert valuation evidence in complex business investment disputes. andquot;Best book 2008 of the OGEMID awards!andquot;

Practical Guide to Psychic Powers-Melita Denning 2000 ESP. Divination. Psychometry. Telekinesis. Astral vision. You've heard of all these talents. The amazing truth is that you can have all of these abilities when you practice the simple, but powerfully effective, exercises in Melita Denning and Osborne Phillips' Practical Guide to Psychic Powers. World-famous experts Denning and Phillips explain exactly what you need to develop your own innate abilities, including advice on diet, rest, and exercise. They advise you to meditate daily, and give instructions how you can bring this wonderful skill into your life. They also reveal how you can make your own tools for psychic development, such as a pendulum, ESP cards, and a Vision Mirror. Practical Guide to Psychic Powers explains that your attitude is important in establishing these abilities in your life. You'll discover how to eliminate boredom and stress, practice mental concentration for long periods, and have foreknowledge of the future. Many of the exercises to help you to develop psychic abilities are in the form of games, making them fun, preventing boredom, and creating faster success. For example, you'll learn a game of guessing dice, one with ESP cards, and another that uses the vision mirror to predict your future. The book teaches you how to become aware of the impressions a material object has gathered, the art of psychometry. You'll learn about contacting spiritual entities the way Spiritualists do. You'll also discover the secrets of dowsing and how to develop and use this ability. Denning and Phillips are known for their clarity of thought and for having effective techniques, as demonstrated in Practical Guide to Psychic Powers. Get your copy today.

The Cult of the Presidency-Gene Healy 2009 The Bush years have given rise to fears of a resurgent Imperial Presidency, but the problem cannot be solved simply by bringing a new administration to power. Both Left and Right agree on the boundless nature of presidential responsibility. For both sides, it is the president's job to grow the economy, teach our children well, save us from hurricanes, and even to spread democracy abroad. In short, the Imperial Presidency is the price we pay for making the office the focus of our national hopes and dreams. Combining historical scholarship, legal analysis, and cultural commentary, The Cult of the Presidency argues that the presidency needs to be reined in, with its powers checked by Congress and the courts. Only then will we begin to return the presidency to its proper constitutional role.

Cumulenes in Click Reactions-Henri Ulrich 2009-11-19 Cumulenes are organic molecules with two or more cumulative (consecutive) double bonds. Their reactions often proceed at room temperature, with or without a catalyst, and are stereospecific, giving the reaction products in high yields - features characteristic of "click reactions". Cumulenes in Click Reactions presents a comprehensive list of cumulene systems and their reactions, with an emphasis on their "click-like" nature. The chapters are structured according to the number of carbon atoms in the system, including coverage of: introduction to the chemistry of cumulenes one-carbon cumulenes: sulfines, sulfenes, thiocarbonyl S-imides, thiocarbonyl S-sulfides, and 1-aza-2-azoniaallene salts two-carbon cumulenes: carbon oxides, carbon sulfides, carbon nitrides (isocyanates, isothiocyanates, and carbodiimides), phosphaalenes, and diarsaalenes 1,2-dicarbon cumulenes: ketenes, thioketenes, ketenimines, 1-silaallenes, 1-phosphaallenes, and other metal allenes 1,3-dicarbon cumulenes: thiocarbonyl S-ylides, 2-azaallenium salts, 1-oxa-3-azoniabutatriene salts, 1-thia-3-azoniabutatriene salts, and phosphorous ylides 1,2,3-tricarbon cumulenes: allenes, butatrienes, higher cumulenes and heterobutatrienes noncarbon cumulenes: azides, triazaallenium salts, sulfur oxides, sulfur nitrides, N-sulfinylamines, sulfurdiimides, and dithionitronium cation Cumulenes in Click Reactionsis an essential guide for researchers and advanced students in academia and research working in synthetic organic, inorganic and bioorganic chemistry.

Renewal-Shmuley Boteach 2010-05-25 Our culture is showing the cracks of a growing fracture. Soaring divorce rates; a crippled economy that rewards the few and punishes the many; religious-fueled hatred; record rates of depression—the headlines paint a grim picture. We inhabit a society that desperately needs fixing. But as Rabbi Shmuley Boteach reveals in his new book, Renewal, our society can made whole again when we as individuals make the choice to live a life based on values. For too long, conversations about values have been derailed by political movements trying to score points over hot-button issues like gay marriage or abortion. Boteach, one of our wisest and most respected counselors and spiritual experts, reaches deep into our history and into our shared religious legacy to revive the key universal values of Judaism for our struggling world. He presents these age-old ideas as guideposts for the challenges of modern times. These values, whose roots are in the Bible and thousands of years of Jewish spiritual living, can be applied to anyone in the modern world—from Christians and Muslims to atheists and agnostics—who want to renew their existence and recommit themselves to the most precious things in life. Renewal shows everyone how to use the timeless values of the Hebrew Bible and Judaism to live a more fulfilling, modern life. Destiny Unlike the Greeks, who believed that life was scripted from birth, the Jews believe in destiny. In short, they reject the idea of tragic fates and instead champion the individuals' capacity to create their own destiny through individual choice. Redemption Christians and Muslims emphasize salvation, or the need for man to become spiritual—to refine his character and earn a place in heaven. But Jews believe in world redemption, the capacity for the individuals to make heaven here on earth for,the betterment of the community. Action What you do is more important than what you believe. Good deeds always supersede good dogma. Enlightenment Jews are an infinitely curious people and believe that the great bane of existence—boredom—can only be cured by knowledge. Marriage Marriage refers not just to the institution, but rather the softening of the masculine by exposure to the feminine. A culture that does not know how to respect women is bound to collapse. Struggle It is wrestling with our nature, rather than attaining perfection, that constitutes true righteousness. Everyone is somehow flawed, but righteousness is found in the struggle to do right amid a predilection to act selfishly. Sacred Time Whereas other religions sanctify space, Jewish values privilege special moments. The Sabbath day, the holiest day of the week, provides a time for connecting with family and friends.

The Remedy-Pascal Dennis 2010-06-24 Winner of the Shingo Prize for Excellence in Quality Improvement -From the Shingo judges: This work has an extremely widespread application as the tools, techniques, and methods described are at a level that achieves the goals of Lean and operational excellence without tying them down to a specific industry or work stream. The book provides practical knowledge for lean champions, managers, and executives driving toward operational excellence enterprise-wide. The story format, and the presentation of this material was excellent, and the avoidance of lean and operational excellence jargon gives the book a wide appeal...it is a pleasure to read. The Sequel to the Influential "Lean" Business Novel Andy & Me The Remedy is a compelling a business fable that shows how Lean quality improvement business practices—traditionally associated with manufacturing--can dramatically improve the service areas of your business-including design, engineering, sales, marketing and all processes in between. Written by Pascal Dennis, a leading Lean consultant, the story follows Tom Pappas and Rachel Armstrong, senior leaders at a desperate automotive company as they try to implement a Lean management system across an entire platform, the Chloe, a breakthrough "green" car. The future of the company is at stake. Can Tom and Rachel, supported by Andy Saito, a retired, reclusive Toyota executive, regain the trust and respect of the customer? Can a venerable but dying company implement Lean practices to every part of their business and learn a new, more effective way of managing? Shows you how to use the Lean quality improvement method to fix not just a manufacturing system, but an entire company, including management, design, marketing, and supply chain Written by Pascal Dennis, author of four books on Lean practices and winner of the coveted Shingo Prize for outstanding research contributing to operational excellence Originally developed by Toyota, the Lean approach to quality improvement has gained a worldwide following and helped turn around enumerable struggling businesses
