<p><b>Republic of Spin: An Inside History of the American Presidency</b>-David Greenberg 2016-01-11 "A brilliant, fast-moving narrative history of the leaders who have defined the modern American presidency."—Bob Woodward In Republic of Spin—a vibrant history covering more than one hundred years of politics—presidential historian David Greenberg recounts the rise of the White House spin machine, from Teddy Roosevelt to Barack Obama. His sweeping, startling narrative takes us behind the scenes to see how the tools and techniques of image making and message craft work. We meet Woodrow Wilson convening the first White House press conference, Franklin Roosevelt huddling with his private pollsters, Ronald Reagan’s aides crafting his nightly news sound bites, and George W. Bush staging his “Mission Accomplished” photo-op. We meet, too, the backstage visionaries who pioneered new ways of gauging public opinion and mastering the media—figures like George Cortelyou, TR’s brilliantly efficient press manager; 1920s ad whiz Bruce Barton; Robert Montgomery, Dwight Eisenhower’s canny TV coach; and of course the key spinmeisters of our own times, from Roger Ailes to David Axelrod. Greenberg also examines the profound debates Americans have waged over the effect of spin on our politics. Does spin help our leaders manipulate the citizenry? Or does it allow them to engage us more fully in the democratic project? Exploring the ideas of the century’s most incisive political critics, from Walter Lippmann and H. L. Mencken to Hannah Arendt and Stephen Colbert, Republic of Spin illuminates both the power of spin and its limitations—its capacity not only to mislead but also to lead.</p>
<p><b>Project Management Absolute Beginner’s Guide</b>-Greg Horine 2017-02-09 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Succeed as a project manager, even if you’ve never run a project before! This book is the fastest way to master every project management task, from upfront budgeting and scheduling through execution, managing teams through closing projects, and learning from experience. Updated with more insights from the front lines, including agile approaches, dealing with security and privacy priorities, and leading remote/virtual teams, along with the latest on Microsoft Project and PMI standards and certifications and a special bonus chapter on preparing for the PMP certification. This book will show you exactly how to get the job done, one incredibly clear and easy step at a time. Project management has never, ever been this simple! Who knew how simple project management could be? This is today’s best beginner’s guide to modern project management... simple, practical instructions for succeeding with every task you’ll need to perform! Here’s a small sample of what you’ll learn: • Master the key skills and qualities every project manager needs • Lead projects, don’t just “manage” them • Avoid 15 most common mistakes new project managers make • Learn from troubled, successful, and “recovered” projects • Set the stage for success by effectively defining your project • Build a usable project plan and an accurate work breakdown structure (WBS) • Create budgets and schedules that help you manage risk • Use powerful control and reporting techniques, including earned value management • Smoothly manage project changes, issues, risks, deliverables, and quality • Manage project communications and stakeholder expectations • Organize and lead high-performance project teams • Manage cross-functional, cross-cultural, and virtual projects • Work successfully with vendors and Project Management Offices • Make the most of Microsoft Project and new web-based alternatives • Get started with agile and “critical chain” project management • Gain key insights that will accelerate your learning curve • Know how to respond to real-life situations, not just what they teach you in school</p>
<p><b>Skin Trade</b>-Guy Lilburne 2016-03-28 There are so many beautiful and sexy women working in the bars around Bangkok, Pattaya and Phuket in Thailand. Dazzling smiles and seductive eyes on exotic faces entice customers to step into their night time world of neon lights and pulsating music. Skimpy clothes on tanned skin adorned with tattoos. Considered art ‘Master Pieces’ by some. Tattoos are touched, kissed and admired by the men who are tempted to step into this twilight world of ‘love for sale’. When the body of a beautiful young woman is found murdered and skinned in her small rented room in Pattaya the police ask Danny O’Brien, a retired Detective Sgt from New Scotland Yard to take a look at the case. O’Brien lives in Thailand and he has advised on many previous ‘High Profile’ cases for the Thai Government. To some people Danny O’Brien will always be just an old drunken Irishman who gets into too many fights and solves murder cases with nothing more than sheer luck. To others he is the best detective they have ever worked with. He has his own demons to battle with but when he is sober for long enough, Danny O’Brien is back on the case. Even when the case turns out to be political and international.</p>

<p><b>Around the Way Girl</b>-Taraji P. Henson 2016-10-11 From Taraji P. Henson, Academy Award nominee, Golden Globe winner, and star of the award-winning film Hidden Figures, comes an inspiring and funny memoir—“a bona fide hit” (Essence)—about family, friends, the hustle required to make it in Hollywood, and the joy of living your own truth. With a sensibility that recalls her beloved screen characters, including Katherine, the NASA mathematician, Yvette, Queenie, Shug, and the iconic Cookie from Empire, Taraji P. Henson writes of her family, the one she was born into and the one she created. She shares stories of her father, a Vietnam vet who was bowed but never broken by life’s challenges, and of her mother who survived violence both at home and on DC’s volatile streets. Here, too, she opens up about her experiences as a single mother, a journey some saw as a burden but which she saw as a gift. Around the Way Girl is also a classic actor’s memoir in which Taraji reflects on the world-class instruction she received at Howard University and how she chipped away, with one small role after another, at Hollywood’s resistance to give women, particularly women of color, meaty significant roles. With laugh-out-loud humor and candor, she shares the challenges and disappointments of the actor’s journey and shows us that behind the red carpet moments, she is ever authentic. She is at heart just a girl in pursuit of her dreams in this “inspiring account of overcoming adversity and a quest for self-discovery, written with vitality and enthusiasm” (Shelf Awareness).</p>

<p><b>Dream On (Whatever After #4)</b>-Sarah Mlynowski 2013-11-26 My friend Robin and I were going to have the best sleeper ever. We'd stay up late, eat s'mores, share secrets -- and NOT knock on my magic mirror. I was NOT getting pulled into another fairy tale. But the mirror STILL ends up pulling me and my brother, Jonah, into Sleeping Beauty's story - and this time, Robin comes with us, too! When Robin pricks her finger on the spindle, I know we're in trouble. Now she's fast asleep, Sleeping Beauty is wide awake, and I have to: - Host a fake birthday party for Jonah - Find a prince to wake up Robin - Avoid getting cursed by scary fairies We only have ten hours to make things right . . . or this day will become a nightmare!</p>

<p><b>Kawasaki Z750 &amp; Z1000, '03-'08</b>-Haynes Publishing 2018-05-01 Each Haynes manual provides specific and detailed instructions for performing everything from basic maintenance and troubleshooting to a complete overhaul of the machine, in this case the Kawasaki Z750 &amp; Z1000, model years 2003 through 2008. Do-it-yourselfers will find this service and repair manual more comprehensive than the factory manual, making it an indispensable part of their tool box. A typical Haynes manual covers: general information; troubleshooting; lubrication and routine maintenance; engine top end; engine lower end; primary drive, clutch and external shift mechanism; transmission and internal shift mechanism; engine management system; electrical system; wheels, tires and drivebelt; front suspension and steering; rear suspension; brakes; body, and color wiring diagrams. An index makes the manual easy to navigate.</p>

<p><b>Proficient Motorcycling</b>-David L. Hough 2010-11-09 This best-selling book is also “#1 book in motorcycle safety” (Nielsen BookScan) and essential reading for all motorcyclists regardless of their years of experience. Author David L. Hough, a revered motorcycle author, columnist, and riding-safety consultant, lays out a clear course for all riders who want to sharpen their handling skills and improve their rides. This second edition, expanded and now in full color, offers new riders and road warriors the exact kind of advice they need to be prepared for anything when on the road, how to avoid accidents, and how to handle the unexpected. Hough, who began motorcycling in the 1960s, tackles every imaginable topic—from the mechanics of the bike, selection of the right-sized bike, and basic riding skills to night riding, group outings, and advanced survival tactics. In the chapter called “Motorcycle Dynamics,” Hough spells out the equipment needed and basic skills required to control a bike, and specifically keeping the rider’s safety and ability to avoid potentially injurious or fatal crashes. The author is outspoken and direct when it comes to safety, and he emphasizes the importance of the rider’s braking abilities and spells out how to improve them. The chapter offers six tried-and-true techniques for quick-stop tactics, critical for every rider to understand and master. He also addresses other vital skills that riders need to evaluate and improve, such as turning, maintaining balance and stability, and steering. He defines, compares, and analyzes the ins and outs of steering and control: direct steering, countersteering, push steering, out-tracking, coning, u-turns, and directional control. The chapter called “Cornering Habits” is a virtual master class in acceleration, deceleration, use of weight, throttle, leaning, and handling challenging terrain. Hough’s skill as a photographer and illustrator adds a graphic element to his books that leads to immediate understanding of the concepts he explains. The detail offered in each section of the book can only come from decades on the road, and the author is the consummate instructor, assigning homework to the readers in the form of exercises to practice and improve specific techniques that he outlines and illustrates in the text. Any rider who would venture out on the road without David Hough’s voice in his head takes an unnecessary risk with his own life. Proficient Motorcycling takes riders from long, snaking country roads right into the traffic of the big city, and Hough offers the best advice for riders dealing with the most challenging conditions, whether it’s road construction, snap-jawed intersections, skateboarders, or suddenly slippery road surfaces. A critical section of the book offers riders advice on how to deal with automobiles, including aggressive car drivers, oblivious SUV drivers, or “blind” truck drivers. The book offers the kind of first-hand experience that can literally save riders’ lives, as illustrated in the chapters “Booby Traps” and “Special Situations,” which offer evasive tactics and advice to avoid and handle everything from slick surfaces, curbs, and construction plates to ferocious dogs, hazardous wildlife, and difficult weather conditions. The final chapter of the book, “Sharing the Ride,” is geared toward experienced riders who travel together in groups or who travel with a second passenger on the bike. Topics covered are formation, packing for trips, communication between riders, sidecars, trikes, and more. The book concludes with a resources section of organizations, training schools, educational tools, and websites; a glossary of 80+ terms; and a complete index.</p>
<p><b>The Ophthalmology Examinations Review</b>-Tien Yin Wong 2011-01-19 With Contributions FromChelvin Sng (National University Health System, Singapore) &amp; Laurence Lim (Singapore National Eye Centre, Singapore) Many new treatments and diagnostic procedures in ophthalmology have been refined or newly developed during the past four years, a new edition reflecting these changes is most timely. The scope and aim of the book will be consistent with the first edition, which provides a broad review of the specialist ophthalmology examinations for final year ophthalmology residents and trainees. The book deals primarily with key facts and topics that are important from the examination perspective. Only information and facts that are considered relevant and critical to the exams are covered, with topics that may be of scientific interest, but are not commonly tested in exams, specifically left out. Time-challenged readers will also benefit from the knowledge acquired from various other sources or textbooks that are now organized and synthesized in this book. While not meant to replace the standard textbooks, enough information is contained within the book to serve as the main revision text nearer the exams. The style and format of this book is intentionally didactic, with questions and short answers. The answer includes a “model opening statement,” followed first by a classification system to aid organization of facts, and then the core explanation in concise short notes. “Exam Tips” are inserted to provide an insight into techniques of answering different types of questions and when appropriate, a “Clinical Approach” section is also included. In the new edition, topics such as new understanding of disease mechanisms (e.g., genetics of eye diseases), new investigations (e.g., OCT), and novel procedures and treatment (e.g., the use of antivascular endothelial growth factors, new refractive surgical techniques) are covered. This book will be a valuable guide to the final year ophthalmology residents and trainees taking the specialist ophthalmology examinations, particularly for exams with a strong oral or viva component. Although primarily aimed at candidates attempting the British postgraduate exams (FRCS, FRANZCO, MRCS, MRCOphth and FRCOphth), it is also useful for other examination systems (e.g., the American Boards). Many junior residents, in fact, find the information handy during grand rounds.</p>
<p><b>Recent Advances in Engineering Mechanics and Their Impact on Civil Engineering Practice</b>-Wai-Fah Chen 1983</p>
<p><b>The Motorcycle Safety Foundation’s Guide to Motorcycling Excellence</b>-Motorcycle Safety Foundation 2019-08-13 This is the book for the motorcyclist who wants to do it right! The Motorcycle Safety Foundation’s Guide to Motorcycling Excellence is the most complete and authoritative guide to motorcycle safe-riding techniques and strategies. More than one million students have completed courses developed by the Motorcycle Safety Foundation, and this book is the culmination of what this leading rider-training organization has learned about teaching students of all ages and experience levels. It is the perfect refresher for anyone who has taken an MSF class and it will be an eye-opener for those who have not yet taken a formal training course. In a clear, engaging style with detailed diagrams and extensive full-color photographs and illustrations, the book covers rider attitude, proper gear, basic and advanced street skills, and performance, as well as skill maintenance and troubleshooting. Topics include how to stop quickly when necessary; avoiding traffic hazards; applying evasive maneuvers; countersteering for better control; traveling safely and skillfully in a group; identifying and fixing mechanical problems; riding smoothly at high and low speeds; maintaining momentum in off-highway riding; and much, much more. The Motorcycle Safety Foundation’s Guide to Motorcycling Excellence is a remarkable source of riding wisdom and the definitive reference for the sport.</p>
<p><b>Suzuki GSX-R600 '01 to '03, GSX-R750 '00 to '03, GSX-R1000 '01-'02</b>-John H Haynes 2008-06-30 Haynes offers the best coverage for cars, trucks, vans, SUVs and motorcycles on the market today. Each manual contains easy to follow step-by-step instructions linked to hundreds of photographs and illustrations. Included in every manual: troubleshooting section to help identify specific problems; tips that give valuable short cuts to make the job easier and eliminate the need for special tools;notes, cautions and warnings for the home mechanic; color spark plug diagnosis and an easy to use index.</p>
<p><b>GTO Volume 19</b>-Tohru Fujisawa 2004-07-06 When former gangster Onizuka decides to become a teacher, the only job he lands is a student teacher position at the Holy Forest Academy where he must rely on his street smarts to deal with the difficult students.</p>
<p><b>Volver a respirar</b>-Beatriz Saiz 2018-05-29 Lucca llega a York con dieciséis años, junto a una madre que no lo quiere y un padre que lo ama pero que no puede estar con él. En su camino se cruza una adorable niña de ojos azules, pelo rubio y piel blanquecina que le hace sentir cosas que no consigue explicar. Tras mucho esfuerzo, Lucca se da cuenta que no puede alejarse de Sandra, y pasa a su lado el mejor año de su vida. Pero los miedos de Lucca son mayores y acaba huyendo lejos de ella. Sandra llega a Italia con mucho rencor y dolor por culpa del abandono de Lucca, pero cuando lo vuelve a ver, todo se esfuma. Le cuesta mucho resistirse a sus encantos, aunque lo intenta.Por otra parte y sin previo aviso, Lorenzo aparece en la vida de Sandra, haciéndole sentir cosas que creía olvidadas. Pero... ¿Y Lucca? ¿Podrá Sandra olvidarse del que creía su verdadero amor gracias a un atractivo desconocido?</p>
<p><b>El día que vuelva no me marcharé jamás</b>.-Juan Manuel Fernández Legido 2020-11-24 ¿Es posible que las personas que amamos y nos rodean estén ligadas a nuestra vida a través de la distancia y el tiempo? ¿Y si parte de nuestro carácter, gustos, miedos e inclinaciones no se deben sólo a las experiencias de nuestra vida? ¿Es posible que vengan dados de otras vidas? En la Barcelona actual, Sergi y Silvia, una pareja en crisis, y sus amigos Pesi y Laia descubrirán que su existencia en el siglo XXI, quizás no viene dada solo de la experiencia del día a día. Sus vidas son una continuación de un camino trazado desde otras épocas, como el Imperio Romano o la España de la Guerra Civil. Tres historias, en tres periodos distintos, que se entrelazarán con el objetivo de que los personajes entiendan su presente y superen sus miedos y conflictos. Sumérgete en la narrativa de Juan Manuel Fernández Legido y descubre sus historias.</p>
<p><b>The Ride So Far</b>-Lance Oliver 2010-11-01 Few paint a more vivid or varied picture of the joys of riding than this collection of stories from a motorcycling life by Lance Oliver, who has spent more time than most of us thinking about and writing about the art and practicalities of motorcycling.</p>
