Main Clause Phenomena-
Lobke Aelbrecht 2012-06-27
Main Clause Phenomena: New Horizons takes the study of Main Clause Phenomena (MCP) into the 21st century, without neglecting the origins of the topic. It brings together work by both established and up-and-coming scholars, who present analyses for a wide range of MCP, from a variety of languages, with a particular focus on particles and agreement markers, complementizers and verb second, and the licensing of MCP in different types of clauses. Besides enriching the empirical domain, this volume also engages with the

theoretical question of how best to capture the distribution of MCP and, in particular, to what extent they are embeddable and why. The diverse patterns and analyses presented challenge the idea that MCP constitute a homogeneous class. Main Clause Phenomena: New Horizons is of interest not just to scholars specializing in the study of MCP, but to all linguists interested in the syntax and/or semantics of the clause.

Monsarrat 2012-09-06 This is how the war at sea really was... Nicholas Monsarrat's war, in those dark years of 1939-1945, was a ferocious, unforgiving, terrible war: the Battle of the Atlantic. An RNVR officer, he served on His Majesty's corvettes, tough little ships charged with the impossible task of seeing vital convoys safely through the packs of marauding U-boats. Between watches he kept a record of life on board, the good times and the bad, true tales of heroism, fear and all too often death. This was the war at sea as it really was. The three books were sensationally published even while the war raged about him, and make a fascinating prelude to the post-war *The Cruel Sea*. Also in this edition are his other short pieces on the sea, including the stories *HMS Marlborough Will Enter Harbour* and *The Ship That Died of Shame*. Here is some of the most dramatic literature of the sea ever written, from one of the finest writers of his generation.

The Bulk Sales Act-Alberta Law Reform Institute 1990
This report describes the Act and states the reasons for our conclusion that the Act should be repealed. It also contains the text of the Act, describes the survey conducted of members of the legal profession regarding their views on the Act, and summarizes the most frequently expressed reasons for retaining the Act, and states why it was concluded that those reasons were overborne by those in favour of repeal. Finally, it describes some approaches that could be taken to reforming rather than repealing the Act.

The Legal Construction of Personal Work Relations-Mark Freedland FBA
2011-12-15 This book explores the conceptual

framework of European employment law, focusing on understanding the law's construction of employment relationships. The book draws on extensive comparative research of the legal architecture of employment relations in national legal systems and EU law to analyse the traditional model of the contract of employment and the difficulties of using the traditional model to frame modern working relationships. The authors then present a new model of the foundations of employment relationships, based on the concept of a personal work nexus, and explore the potential of their model to shape the future development of employment law. Throughout the book, the authors analyse the interaction of domestic and EU employment law, and discuss the possibility of future legal harmonisation in the area. They conclude by exploring the potential for a common framework for European employment law, in the context of broader debates surrounding the harmonisation of European private law.

The contract of employment is the central legal institution of modern English employment law. It provides the foundation upon which most statutory employment rights are constructed; it provides a conduit for the implementation of norms negotiated in collective bargaining; and it continues to provide a contractual structure for the terms and conditions of employment for a significant proportion of the working population. The Contract of Employment provides the most ambitious and comprehensive treatise on the theoretical and doctrinal aspects of the English contract of employment in the common law world. Under the general editorship of Professor Mark Freedland, the text has been produced by a team of world leading experts in employment law. Part I examines the theoretical context to the contract of employment, studying its structure and development from a wide variety of theoretical and comparative perspectives. Part II provides an exposition and analysis of the doctrinal aspects of the

contract of employment. The coverage of The Contract of Employment is unrivalled in its depth, detail and sophistication. The legal analysis is always informed by a keen sense of the modern labour market context of the contract of employment, and it is sensitive to contemporary challenges such as precariousness, the interaction with migration law, the role of legislation in the contract of employment, and the decline of collective bargaining. It will be the principal reference point for the practitioners, judges, and academics concerned with the contract of employment as a legal category, both nationally and internationally.

Song from the Forest-Louis Sarno 2015-04-07 As a young man, American Louis Sarno heard a song on the radio that gripped his imagination. With some funding from musician Brian Eno, he followed the mysterious sounds all the way to the Central African rain forest and found their source with the Bayaka Pygmies, a tribe of hunters and gatherers. Nothing could have

prepared him for life among the Pygmies, a people legendary for their short stature and musical wealth. Sarno never left. Considered outwardly lazy by some, scrounging, and near alcoholic, the Pygmies Sarno met had seemingly lost all desire to hunt or make music. Only after he had lived with them for some time (on a diet of tadpoles) was he allowed to join them in the rain forest where they still in relative harmony with nature. There Sarno experienced the extraordinary beauty and spiritual sophistication of their culture and the supreme importance of music as the principal means by which they communicate with the rain forest and its magical spirits. Over the decades Sarno has recorded more than 1,000 hours of unique Bayaka music. He is a fully accepted member of the Bayaka society and married a Bayaka woman. Permanently changed by his experience and captivated by a Bayaka culture, In Song from the Forest Sarno has chronicled his attempt to protect the fragile existence of the Pygmies in an increasingly destructive

world. Once, when his son, Samedi, became seriously ill and Sarno feared for his life, he held his son in his arms through a frightful night and made him a promise: "If you get through this, one day I'll show you the world I come from." Now the time has come to fulfill his promise. In a new major documentary film, Sarno tells the story of the Bayaka as he travels with Samedi from the African rain forest to another jungle, one of concrete, glass, and asphalt: New York City. Together, they meet Louis' family and old friends, including his closest friend from college, Jim Jarmusch. Carried by the contrasts between rainforest and urban America, and a fascinating soundtrack, Louis' and Samedi's stories are interwoven to form a touching portrait of an extraordinary man and his son. SONG FROM THE FOREST is a modern epic film set between rainforest and skyscrapers.

A Practical Approach to Employment Law

Employment law has

undergone a great deal of change over the past few years; most significantly the enactment of the Equality Act 2010 and the case law that has emerged as a result have irrevocably altered the legal landscape in relation to discrimination in the workplace. These developments have been fully explored in this new edition of *A Practical Approach to Employment Law*. Now in its ninth edition, this book provides a comprehensive and systematic exploration of the principles and practice of employment law. It is structured to meet the requirements of the lawyer who needs to find practical solutions to practical problems. It provides a clear guide to all aspects of individual and collective employment law as it actually works today. Key developments in this new edition include: extensive coverage of new rules and legislation such as the Equality Act 2010, the Enterprise & Regulatory Reform Act 2013, the Growth & Infrastructure Act 2013, the Trade Union Act 2016, and the new Employment Tribunal

rules; as well as full consideration of relevant case law. The *A Practical Approach* series is the perfect partner for practice work. Each title focuses on one field of the law, providing a comprehensive overview of the subject together with clear, practical advice and tips on issues likely to arise in practice. The books are also an excellent resource for those new to the law, where the expert overview and clear layout promote clarity and ease of understanding.

The Syntax of Relative Clauses-Artemis Alexiadou
2000-07-15 This book presents a cross-section of recent generative research into the syntax of relative clauses constructions. Most of the papers collected here react in some way to Kayne's (1994) proposal to handle relative clauses in terms of determiner complementation and raising of the relativized nominal. The editors provide a thorough introduction of these proposals, their background and motivations, arguments for and against. There are detailed studies in the syntax and the semantics of relative clauses constructions in Latin, Ancient Greek, Romanian, Hindi, (Old) English, Old High German, (dialects of) Dutch, Turkish, Swedish, and Japanese. The book should be of interest to any linguist working within generative syntax.

Caspar Lee-Caspar Lee

2016-05-31 A hilarious biography from YouTube sensation Caspar Lee (and his mom)! This is a book about me. Unfortunately, I didn't write it--my mom did. WTF! Let me tell you now that 98% of it is total lies. Actually, I'm pretty sure this book is illegal. So if you've bought it, you've basically supported a criminal. How does that feel? I think she's getting me back for my first day in this world when I may have tried to kill her. She won't not be able to mention that. You might also find out about my first day at school, why my head is so massive, how I've always been a hit with the ladies and other things like that. You know, important stuff. Anyway, I found the book at the printer and you'll see I've corrected some of her most outrageous lies. So, you know, enjoy. Just remember only the bits that make me look good are true . . .

Employment Law in

Context-Brian Willey 2003
Employment law is a matter of increasing importance for managers and human resource professionals. Approaching the subject from a human resources rather than a law perspective, this book aims to inform about the context in which employment law is enacted and promotes understanding of: the application of the law to HRM, the social purposes behind the legislation, and the contextual issues that affect the implementation of the law.

imposter. Maybe his real son actually turned into a talking, shape-shifting sea-creature and is back to have a heart-to-heart. Or maybe it's all true, all at once. A kaleidoscope of monsters, mythmaking and sudden, striking humor, Roland Schimmelpfennig's smash-hit *Idomeneus* details the end of a war between nations and the beginning of a war between reason and superstition. *Idomeneus* makes a promise to the gods, and what comes next is a fractured, mythic tidal wave, brought to life in an inventively staged quest-story.

Innocence Lost-Beverley Cooper 2009 In June of 1959, 12-year old Lynne Harper was found raped and strangled in a farm woodlot near Clinton, Ontario. A few months later her classmate, 14-year old Steven Truscott, was convicted of the murder. He was sentenced to death by hanging. Truscott always maintained his innocence. As the youngest person ever sentenced to death in Canada, his case was a major impetus for the abolishment of capital punishment in this country, and his sentence was commuted to life imprisonment in 1960. In 2007, after a review of more than 250 pieces of new evidence, the Ontario Court of Appeal ruled that Truscott's conviction had been a miscarriage of justice, and he was acquitted. In this incisive and emotionally-taut dramatization of the case, Beverley Cooper recreates the world of Steven Truscott and his friends. Sarah, a young farm girl, is our guide to life bounded by small town

With finely-calibrated tension, Cooper leads the audience through the case afresh and sheds light on the human cost of what is now considered to be Canada's most notorious wrongful conviction.
